

CREATING THE IMAGE

STEP ONE: CHOOSING/SAVING AN IMAGE

- 1) Find something that interests you!
- 2) Make sure it has enough detail to make a successful print, but not too much or your print will be too busy.
- 3) Save this image into your folder - RENAME it so it is easy to find.

STEP TWO:

- 1) Go to fotoflexer.com to begin editing your image.
- 2) Upload the image from "My Computer"

STEP THREE:

- 1) Once you have your image, you need to click on the RESIZE BUTTON.
- 2) Click in the boxes and change to 288 x 432. I will help you with this part!

STEP FOUR: *This is if your image needs to be flipped!!*

By clicking on the flip button you will be able to flip your image horizontally so that it prints the correct way!

Now you need to **SAVE** your image back into your folder!

Then **PRINT** :)
